

Shon Harris' CISSP® Certification Package

Are you looking to attain the CISSP certification?

Now, experience at home, at work, or while traveling, the same phenomenal CISSP course Shon Harris has taught for companies all over the world.

Not everyone has the time and money to attend college courses, training sessions or bootcamp classes. Our *Computer-Based Training* (CBT) course has been designed for people who desire flexibility in their learning process.

Lower costs and more flexibility.

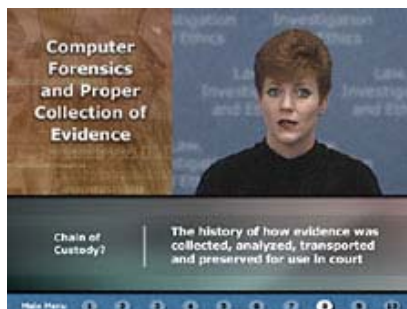

This CBT can be accessed at home, at work and while traveling, and cost much less than attending such courses in-person (around **\$4,000-\$6,000 registration and travel fees, and in time away from work**).

Over 24 hours of instruction addressing the *Common Body of Knowledge* are presented on three DVD-ROMs. Along with the help you need to achieve your CISSP certification, Shon demonstrates how the 10 diverse domains work together to provide true *defense-in-depth*.

Learn what you need to pass your CISSP certification from the best in the business.

Shon Harris, CISSP, MCSE, is a security consultant, a former engineer in the Air Force's Information Warfare Unit, an instructor and an author. She has written two best selling CISSP books, and contributed to the book, *Hacker's Challenge*. She has also written several security articles in *Information Security* and *Windows & .NET Magazines* as well. Shon has taught computer and information security to a wide range of clients including, RSA, Department of Defense, Department of Energy, National Security Agency (NSA), Bank of America, Defense Information Systems Agency (DISA), and BMC. Shon was recently recognized by *Information Security Magazine* as one of the top 25 women technologists, researchers and executives reshaping information security today.

Shon provides real-world scenarios, examples and explanations so that you can truly grasp even the most complicated concepts. The course includes 3-D animations that conceptually walk you through critical topics. Text highlights, illustrations and question and answer sessions ensure full comprehension

The question is, how much are you willing to spend to achieve the hottest security certification on the market?

You can take home the CISSP CBT for only \$700 instead of spending thousands of dollars for a bootcamp course that requires travel and time away from home and work.

Don't wait to get your CISSP certification, you can do it now!
